A GLIMPSE INTO  
OUR WORK

*The teacher: Katerina Papadopoulou*

# SEASONS

SUMMER  
SPRING  
AUTUMN  
WINTER

Eleana Katsaounou

## Spring

Spring is my favourite season. There are lots of flowers and fruits...strawberries, cherries...The birds fly in the sky to find food. I'm sure they won't be hungry. Spring has food for all birds! I also like spring because of Easter. Easter is great. We colour Easter eggs red. We see our Godfathers. I like 1st May too. We pick flowers and play in the garden. On 1<sup>st</sup> May my brother Konstantinos has his birthday.

Georgia Vasiliou

In spring the roses bloom and it stops snowing and raining. The birds sing and the sun shines in the sky. In April or May it's Easter and we paint eggs. It's the season before summer too.

Andreas Beriatos

## Summer

I like summer because we go to the beach. We go swimming in the sea. We wear sun glasses. We play beach volley and we sit under a beach umbrella. We walk on the sand. We wear suntan lotion. We go to the islands for holidays.

Exploring the jungle

Georgia Vasileiou

## Exploring the jungle

Dear Rose,

The weather is hot and sunny in Africa today. I'm going to the jungle to explore the wild nature. Everything is right but... two tigers are coming towards me.

'Sweet, little cats, don't eat me! I taste bad', I say.

But the tigers keep moving towards me.

'Well if they eat me, how will they cook me?' I think.

I am scared. The tigers look dangerous! What can I do?

'Would you like some biscuits?' I ask them.

Oh I can't believe it. I'm sure you are playing but I'm in danger! Hey! What's this? Is it a deer? The tigers are moving away. They are going to hunt the poor animal. I'm safe.

Love

Georgia

### Announcement

My name is Helena and I am eleven years old. I live in Athens and my telephone number is 2102669025. I want you to help me find my little dog, Jerry. It has small ears and eyes. It is a very good and friendly animal. Please help me find him .

Helena Gyftaki

### Advertisement

The eco toy doesn't need batteries to fly in the stars.

It teaches young astronauts how to fly in space.

It is environmentally friendly.

You can buy it in the shops as a Christmas present!

Iakovos Daktilidis

## My summer holidays

Last summer I went to Tinos. There were two swimming pools in the hotel but I liked swimming in the sea best. There were a lot of tourists there. I ate ice-creams. I bought a T- shirt as a souvenir. I used a suntan lotion for the sun. The summer was very hot. My holidays were perfect.

Dear Natalia ,

It's summer now in Australia.

I'm sitting on the beach writing. My sister is playing with her dolls. My parents are drinking coffee. The sea is green and blue. I like the sea and the sky here. The people are swimming or sunbathing.

Love

Eleana

**Eleana Katsaounou**

Dear Ifigenia,  
How are you?  
The weather is warm here.  
Now I'm in kefalonia.  
We are on the beach right now.  
My mum is sunbathing and my father is eating  
souvlaki.  
My brother is playing football with his friend Mark. My  
sister is reading a newspaper and he is very busy.  
I 'm enjoying my summer holidays. I would like you to  
come to my country.  
I'm looking forward to meeting you

Bye  
Mitsi

Dimitra Ververi

Dear diary,  
It's spring time. There is a lot of heat. The sun is  
shining in the sky.  
I am sitting in my office and I am doing my  
homework. My mother's picking flowers and is  
putting them in a vase. My dad is sleeping in his  
bed. My sister is listening to music and my other  
sister is cooking. I'm bored. I have to go now.  
Goodbye!!!

Iakovos Daktilidis

Dear Eleana,

It's winter time in Paris. There is a lot of snow. It's snowing right now .

I'm on the Eiffel Tower. I'm looking at Paris from up here. Mum's not here. She has gone shopping. My dad is with my sister and my brother. They're ice-skating. We're all having a great time.

I'm sure you're sunbathing on the beach right now. Lucky you! Sorry ,I have to go now.

Love

Natalia

**Dear Dimitra,**

**It's winter time now in London. There are heavy rains, but today the sun is shining.**

**We're outside Buckingham Palace right now and I am watching the changing of the guards.**

**Oh, no! The soldier is coming towards me. I have to go now!**

**Love**

**Helena**

Dear George,

I'm having a great time here in Borneo. I'm in a small house on the mountains Kinambalu. It's snowing outside. Snow is rare here. My little sister is playing with her new friends on the hill near our house. Ah, I met a comodo dragon yesterday. I was really scared .I was very lucky because it was sleeping.

Bye for now

Best wishes ,

your friend, Andrew.

A strange  
experience

I'm in a fantastic place. It's hot and sunny. The sky is blue. There aren't any clouds. I see a house but it is far. I'm walking towards it.

---I've been walking for fifteen minutes now.---

At last I am outside. The house is small and it's got happy pictures on the walls. I'm ringing the doorbell. There isn't anyone inside. On the table there is a plate and a glass too.

I see an old woman's photo. An old woman is coming in.

- 'Who are you?' she asks.

- 'I'm a visitor', I say.

- 'And what are you doing in my house?

I'm going to call the police.'

- 'No, no! Please! I am leaving', I say and get out of the house.

Andreas Tzelos

Our garden

Our garden is big with  
lots of trees.

There are some bees  
Which fly under the trees!

There are some  
butterflies

But there aren't any  
flies!

There are some flowers  
But they aren't all ours.  
There are lots of colours  
Which are all ours!!!

## Our solar system

The Moon is the only natural satellite of the Earth. The moon gets light from the sun and it gives light to the Earth at nights. It takes the moon 27.322 days to spin round the Earth once. It is grey and has got stones, iron and powder.

Daktilidis Iakovos

Saturn is one of the nine planets of our solar system. It gets light from the sun, like the Earth, but Saturn's interior is very hot.

Saturn is about 75% hydrogen and 25% helium with a lot of ice of ammonia, ice of methane and water ice.

It has two prominent rings(A and B) and one faint ring (C).They can be seen from the Earth because they are very bright.

Elena Gyftaki

## Children of the world

In Africa the children are very hungry and thirsty. They haven't got houses, clothes, toys, shoes so they are unhappy.

They want to live a better life.

But they need food and water. They also need medical care.

What can we do for them?

Let's think about this.

We could send them money, clothes.

Dimitra Ververi

## Our Planet the Earth

Our Earth is in danger!!!

- The temperature is rising
- The sea level is also rising because the ice in the Poles is melting.
- There is water shortage in many places all over the world
- The air is polluted because of the factories and cars.

Iakovos Daktilidis

## *An astronaut's report from a strange planet.*

Here on planet Mars it's very beautiful. I can see the Earth from here. Mars is a blue and big planet. There are some aliens here. They can speak English and Greek. They have got computers, lights, TVs, and very big houses. They are friendly, they have schools too.

Natalia Katsura

This planet is rocky. The lakes are green and the trees are red or blue. There are many aliens and mountains. The aliens are red, black, yellow or pink. The mountains are purple, black or red. The houses are very small, big or huge and the aliens live in them. There are many jobs easy or hard. The schools are grey but most aliens don't go there. It is a strange planet. Oh, its name is Nemege.

Andreas Beriatos

This planet is red but the houses are blue. All the people are green. There are pink plants everywhere. The schools and the shops are purple. The hospitals are brown and big.

Eleana Katsaounou

This planet is strange! There are green creatures with three eyes, four hands, five legs and six ears. There are computers and cars which are flying. I can't believe it! The houses are strange. They have four doors and one little window. There are flowers but they aren't like ours. The creatures eat chips, so we are safe. They don't like people. There are some restaurants. The menu has only chocolate. And it tastes delicious, too. I don't know the name of this planet but I think I'll call it 'The strange planet'.

Georgia Vasiliou

# Animals --- Zoos

## London zoo - *Saguinus bicolor*

The London zoo in Regent's park is one of the oldest and most famous zoos all over the world. Today it houses over 650 different species of animals, big and small.

One of these small and rare animals is the Pied Tamarin (*Saguinus bicolor*) from the Brazilian Amazon Rain forest. It is a small monkey with white and brown colours and it is a very unusual animal.

Elena Gyftaki

## The white lion

The white lion is a genetic mutation of the African brown lion. The species was discovered by an English researcher in 1975 and today there are approximately 40 white lions left in the world.

## Attica Zoological Park

It is out in the country, near the new airport in Spata. Here you can see some white lions. There are also some flamingos, penguins and many other animals. Visitors mustn't feed the animals.

Georgia Vasiliou

**Cats** are mammals. They are beautiful pets. They like eating fish and meat. Their colour is black, brown, grey or white. They are very playful animals.  
Karystinou Areti

**The polar Bear**  
It lives in the Arctic region. It is white and the male weighs 400-680 kilos. Its height is over three meters. We can find polar bears in Alaska, Canada, Denmark. The oldest polar bear in the world died at the age of 42.

Dimitra Ververi

## The Kangaroo

Kangaroos are mammals. They live in Australia. They are about two metres tall and weigh about sixty kilos. Kangaroos have two back legs and two short front legs and a long tail. Kangaroos carry their babies in a pouch. They live for about 15 to 20 years.

Aggelos Panos

## Oryx

Oryx is a very rare animal. It is one of three or four large antelope species. Two or three of the species are native to Africa with a fourth native to the Arabian peninsula. They have got very big horns, and big ears. They are fast and tall animals. When the weather is boiling hot they have the ability to keep their body temperature at ideal levels. With their big horns they fight for the domination of the team.

Andreas Beriatos

### Fun facts

- Oryx have an unusual circulation system in their heads to cool their blood. This is very helpful when you live in the desert.
- Oryx can sense rainfall far away and will travel up to 50 miles (80 kilometers) to feed on freshly sprouted vegetation.

<http://www.sandiegozoo.org/animalbytes/t-oryx.html>

## Koalas

Koalas are mammals and like dolphins they have babies and feed them on milk. Mothers carry their young in a small pouch for the first six months of their life. Koalas can climb very well. They can swim very well too. They have got grey fur and a big black nose. They've also got very sharp claws. Koalas live and sleep in the tops of eucalyptus trees in Eastern and Southern Australia. They live alone and eat eucalyptus leaves. Koalas live for about fifty years.

### An Interview

*Reporter:* So Lisa, you're a detective.

*Lisa:* Yes, I am.

*Reporter:* How did you understand that Sue White stole the golden earrings?

*Lisa:* Well, first of all, she was at the jewellery shop for a long time and she was looking at the earrings. So when she left I saw something golden in her hand.

*Reporter:* And how did you catch her?

*Lisa:* I told her to stop but she ran away. I followed her and I stopped her. Then she opened her hand and I saw the earrings.

*Reporter:* Thank you Lisa.

Georgia Vasiliou

### An interview

*Reporter:* Our special guest today is our local singer Laura. Welcome, Laura!

*Laura:* Thank you. It's great to be here.

*Reporter:* Do you like your job?

*Laura:* Yes, I like it a lot. The only thing is that I don't see my family very often.

*Reporter:* Well, tell us about a typical day in your life. What time do you get up?

*Laura:* I usually get up at noon because I go to bed very late at night. I have lunch at about three.

*Reporter:* What do you do then?

*Laura:* I go to work.

*Reporter:* What do you do in your free time?

*Laura:* I love going to clubs or having dinner with friends.

*Reporter:* Thank you for joining us.

*Laura:* Thank you for inviting me.
